*CRN MEGA YACHTS  
PRESENTS 125 J'ADE,  
THE NEW 60M MEGA YACHT*

**CRN** is proud to unveil the completed interiors of the 60m J'Ade, the world's first mega yacht to feature a floating garage.

Now ready for delivery to the billionaire owner, J'Ade has been designed to feel at one with the sea, featuring special full height windows providing exceptionally wide panoramic views. This is combined with a beach club, a stern hatch that turns into a large platform by the water, and the highly innovative 'flooded garage', where the owner can store and easily access the 8 metre Riva Iseo Yacht without the need for a tender lift.

J'Ade can comfortably host the whole extended family, with room for 10 guests and 13 crew members. The mega yacht has a top speed of 16 knots and can make the Trans-Atlantic journey, giving easy access to both Europe and the Americas.

A brand of the Ferretti Group, CRN specialises in the construction of fully customised steel and aluminium displacement megayachts ranging from 44 to 90 metres, and a displacement line made of composite (43 metres long CRN Navetta 43). This is an important year for CRN, celebrating its 50th anniversary and marking its resilience and success despite its position in a complex market which has seen the loss of many established brands.

Lamberto Tacoli, CRN Shipyard Chairman and CEO, commented on the launch: We pride ourselves on the craftsmanship carried out by our skilled workers as they make it possible for us to reach every milestone. The Shipyard is in full swing and all our efforts aim at maintaining CRN's position in the elite world of shipbuilding."
