SUMMER 2013

# STYLE, MEET SUBSTANCE

The stunningly beautiful and solidly built *Darlings Danama* is everything you would expect from a superyacht.

BY MIRIAM CAIN

*Darlings Danama* is a perfect example of what can be achieved when expert construction and clever design come together. Built by CRN and designed by Zuccon International Project Studio—in collaboration with CRN's in-house design studio—this yacht is a resounding success. Boasting a winning combination of vast open spaces and light, airy interiors, she is the ultimate entertainment yacht. Every inch has been meticulously finished, including her interior, which has been styled to perfection by Alexandre and Cristina Negoescu in partnership with Centro Stile of CRN. The overall feel is minimalist, although Art Deco accents inject warmth and color into her clean palette.

Despite her pristine finish, *Darlings Danama* remains inviting and relaxed. The sense that she has been primarily built for comfort and entertainment is reinforced by her outdoor spaces. The impressive main and upper decks are well thought out and offer multiple lounging and dining areas for formal or relaxed occasions. The entertainment theme continues to the sundeck, where a large Jacuzzi, additional lounging areas and a bar can be found. Additionally, each deck can be reached by the push of a button, courtesy of a glass elevator.

*Darlings Danama* accommodates 12 guests in six cabins, spread over four decks. Fantastically equipped and beautifully decorated, each cabin is luxurious and secluded, although one does outshine the rest—the full-width owner's suite, which boasts a private balcony and is located on the main deck.

With all her features and facilities, *Darlings Danama* has been a huge hit on the charter market.
