Italian design at the Monaco Yacht Show – gallery

↑ *The Monaco Yacht Show saw Italy stand out for the quality of its design and the professionalism of its shipyards. A selection of the most interesting vessels*

↑ *The owner of the Cloud 9 megayacht by CRN, designed by Zuccon International Project, wanted a yacht that was comfortable and welcoming like a home, in order to be able to live with family, but at the same time have it be functional and usable for chartering activities.*

↑ *Cloud 9's large saloon is divided into lots of different conversation areas, where the theme is the sea, as it is throughout the yacht.*

↑ *Cloud 9's large saloon is divided into lots of different conversation areas, where the theme is the sea, as it is throughout the yacht.*

↑ The owner's cabin on Cloud 9 has a central bed and a fantastic view. All the furniture was made to measure by the British studio Winch Design.

↑ The bathing area on Cloud 9 is at the stern. On the main deck there's also a crosswise pool, with 10,000 litres of water.
